

# Towards a Low Carbon and Climate-Resilient ASEAN Community Post-2015 with a Focus on Sustainable Solutions for Peatland Fires and Haze

The Association of Southeast Asian Nations or ASEAN is now moving forward positively towards the ASEAN Community 2015 and in preparation of the ASEAN Vision 2025.

**Date :**  
**Wednesday, 2 December 2015**

**Time :**  
**16.45 -18.15**

**Venue :**  
**Paris - Le Bourget Site,  
UNFCCC Conference Center  
Observer Room (OR) 4**

The side event will discuss ASEAN's regional strategies and potential coordinated actions towards low carbon and climate resilient ASEAN Community Post-2015, which will contribute to the UNFCCC objectives.

Panelists (tbc)

**Mr. Pham Van Tan**

Ministry of Natural Resources and Environment, Viet Nam

**Dr. Gary William Theseira**

Ministry of Natural Resources and Environment, Malaysia

**Dr. Nur Masripatin**

Ministry of Environment and Forestry  
Republic of Indonesia

**Mr. Faizal Parish**

Global Environment Centre

**Dr. Le Phat Quoi**

National University of Viet Nam

**EU Delegation  
to Indonesia and ASEAN**

**Moderator**

**Dr. Ampai Harakunarak**

ASEAN Secretariat

The discussion will focus particularly on policies and collective actions among ASEAN Member States in maintaining an inherent quality of healthy peatland ecosystems and realizing the vision of a haze-free ASEAN as one of sustainable solutions in reducing greenhouse gas emissions.
